# Packaged Fluid Milk Sales in Federal Milk Order Markets: 

Packaged Fluid Milk Sales Report<br>Agricultural Marketing Service

## PREFACE

This publication presents information relating to the containers in which fluid milk products are sold, and the methods of distribution used to market these items by handlers regulated under Federal milk marketing orders. The information in this report is based on a survey of fluid milk sales by handlers regulated under Federal milk marketing orders during November 2013. Its purpose was to update a similar survey in November 2011, and to see if trends observed in past surveys are continuing. Data were obtained from milk handlers regulated under the 10 marketing orders.

Handlers regulated under Federal milk orders process approximately three-quarters of all the fluid milk products sold in the United States. In general, the sizes and types of containers, and methods of distribution used to market this production would be representative of the entire country. In addition, although these surveys are based on November fluid milk sales, the relationships shown would be representative in other months of the year. Two exceptions would be sales in half-pint containers and sales through school outlets which would not be applicable to sales in a non-school month.

The tables in this report provide historical information from past surveys and detailed information from the current survey. Information is presented for individual orders and for all orders combined. The data in this report are percentages of total fluid milk products sold by regulated handlers. The number of each size of container can be approximated by using the additional information as shown in the appendices at the end of the report.

This is the twenty-eighth report in a series. Similar data have been distributed based on surveys made in November 1963 through 1967, 1969, and every other year thereafter.

## Fluid Milk Products Sold by Container Type

All Federal Milk Marketing Orders

## Graph 1: Fluid Milk Products Sold by Container Type

> Plastic containers continue to be the dominate type used to distribute fluid milk products, accounting for approximately $86 \%$ of the volume of packaged fluid milk sold by FMO handlers during November 2013. Plastic has accounted for two-thirds or more of the volume sold in each survey since 1987.
$>$ Paper continues to be the second most popular container type, accounting for around 14\% of the total sold. Paper's popularity peaked in 1971 when it was responsible for approximately $78 \%$ of the volume sold. The proportion of total milk sold in paper containers declined steadily until 2005, but has remained relatively stable since then.
$>$ The volume of milk sold in glass containers has been less than $0.5 \%$ since 1983. The popularity of glass declined rapidly from 1965 to 1975, falling from approximately $29 \%$ of the total to around $2 \%$ in that 10-year period.
$>$ The proportion of milk sold in each type of container has remained relatively constant during the last five surveys (2005 through 2013).

## Fluid Milk Products Sold by Container Size

All Federal Milk Marketing Orders

## Graph 2: Fluid Milk Products Sold by Container Size

> Approximately two-thirds of the volume of fluid milk sold by FMO handlers is in gallon containers, based on the results of the November 2013 survey. Gallon containers have accounted for at least 60\% of the total during each survey since 1985, and at least 65\% since the 1997.
$>$ The popularity of gallon containers increased dramatically from 1965 to 1975, rising from around $17 \%$ to approximately $43 \%$. Most of this increase came at the expense of halfgallon and quart container sizes, and coincides with the rapid decline in popularity of glass containers.
$>$ The proportion of milk sold in half-gallon containers during November 2013 was approximately one-third the level recorded in 1965, falling from $54 \%$ to $18 \%$. Similarly, the volume accounted for by quarts has fallen precipitously, with the 2013 proportion onefourth that of 1965.
$>$ The proportion of milk sold in half-pint containers has remained remarkably constant throughout the 48-year period depicted in this graph, with a high of $11 \%$ and a low of $9 \%$.

* The figures in Tables 3-1 to 3-10 are based on the aggregate sales volume (all orders combined) for the specified product. See Table 11 for applicable sales volume for each product. Totals may not add due to rounding.
** The figures in Tables 3-Summary are based on the aggregate sales volume (all orders combined) for all products combined. See Table 11 for applicable sales volume. Totals may not add due to rounding.

# 2013 Fluid Milk Products Sold in Gallon Containers <br> All Federal Milk Marketing Orders 

## Graph 3: 2013 Fluid Milk Products Sold in Gallon Containers

$>$ Gallon containers were the prominent type used for reduced fat, whole, fat-free, and low fat milk during November 2013, accounting for at least 64\% of the sales for each of these fluid milk product categories. Overall, gallons were responsible for nearly two-thirds of all milk sold by FMO handlers.
$>$ Over three-fourths of reduced fat and whole milk was sold in gallon containers during November 2013, while gallons accounted for more than two-thirds of fat-free milk sales.
$>$ Gallon containers accounted for around one-third of the sales of organic whole milk and more than 30\% of organic reduced fat milk during November 2013.
$>$ Sales of eggnog, flavored whole, and buttermilk in gallon containers accounted for a very small proportion of the total $-6 \%$ or less -- for each of these categories. Flavored reduced fat milk sales in gallon containers were also a small proportion for this category, accounting for a little more than $12 \%$ of the total.

## 2013 Fluid Milk Products Sold in Half-Gallon Containers

 All Federal Milk Marketing Orders

## Graph 4: 2013 Fluid Milk Products Sold in Half-Gallon Containers

$>$ Half-gallon containers accounted for a little under $18 \%$ of the volume of all milk sold by FMO handlers during November 2013, and this proportion has been quite stable since 1995.
> Half-gallons were the prevalent container size for organic reduced fat, organic whole, buttermilk and eggnog, accounting for more than $50 \%$ of the volume sold for each of these categories.
$>$ More than $64 \%$ of organic reduced fat and organic whole milk sales were in half-gallon containers during November 2013, while half-gallons accounted for over $61 \%$ of buttermilk sales.
> Less than $20 \%$ of the total volume sold during November 2013 for each of the following categories was in half-gallon containers: fat-free, whole, low fat, reduced fat, and flavored reduced fat. Half-gallon sales of flavored whole milk accounted for over 35\% of the category total.

All Federal Milk Marketing Orders

## Graph 5: 2013 Fluid Milk Products Sold in Quart Containers

> The proportion of all FMO milk sold in quart containers during November 2013 was quite small, accounting for less than $3 \%$ of the total.
$>$ According to the biennial surveys, quarts have accounted for $10 \%$ or less of the total volume of milk sold since 1971.
> Approximately $42 \%$ of eggnog sales during November 2013 were in quart containers, which was the largest proportion of any fluid milk category.
$>$ Quart containers accounted for around $28 \%$ of all buttermilk sales, while they made up approximately $15 \%$ of flavored whole milk sales during November 2013. For all other categories, quarts comprised less than $2.5 \%$ of total sales.

## 2013 Fluid Milk Products Sold in Pint Containers

## All Federal Milk Marketing Orders

## Graph 6: 2013 Fluid Milk Products Sold in Pint Containers

> Pint containers comprise a very small proportion of all FMO fluid milk sales - during November 2013 they made up approximately $1.2 \%$ of the total.
$>$ Flavored whole milk was the only category with substantial sales in pint containers during November 2013, with pints accounting for a little under 30\% of the total.
$>$ The only other categories with sales in pints accounting for more than $2 \%$ of the FMO total were flavored reduced fat milk (3.2\%), buttermilk (2.6\%), and eggnog (2.4\%).

## 2013 Fluid Milk Products Sold in Half-Pint Containers

## All Federal Milk Marketing Orders

## Graph 7: 2013 Fluid Milk Products Sold in Half-Pint Containers

$>$ Approximately $10 \%$ of all FMO fluid milk sales during November 2013 were in half-pint containers. This proportion has declined slightly since 2007, but has remained remarkably stable since these surveys began in 1963, with the proportion between 9 and $11 \%$ during each survey.
$>$ Over 65\% of all flavored reduced fat sales were in half-pint containers, while half-pints accounted for more than $18 \%$ of low fat milk sales.
$>$ The only other categories with half-pint sales accounting for more than $5 \%$ of total volume were flavored whole milk with $8.4 \%$, and fat-free milk with $5.5 \%$. Sale in half-pint containers made up $2.2 \%$ or less of total sales for all other categories.

# 2013 Fluid Milk Products Sold in Other Containers 

## All Federal Milk Marketing Orders

## Graph 8: 2013 Fluid Milk Products Sold in Other Containers

$>$ Other container sizes comprised approximately $2.5 \%$ of all November 2013 fluid milk sales. The other category is made up of a wide variety of container sizes, including multi-gallon containers along with various sizes smaller than a pint.
$>$ Flavored reduced fat milk had the largest proportion of sales in the other size category with approximately $8.5 \%$. The only other product with more than $5 \%$ of total sales in other size containers was flavored whole milk (7.0\%).
$>$ Organic reduced fat milk sales in other size containers comprised $3.3 \%$ of the category total, while all other categories recorded proportions of $2.6 \%$ or less.

## 2013 Fluid Milk Products Sold by Method of Distribution

## Food Chains

## Graph 9: 2013 Fluid Milk Products Sold by Method of Distribution : Food Chains

$>$ Slightly less than half of all FMO fluid milk sales during November 2013 were sold through food chain stores. The food chain category includes supermarkets as well as dairy and convenience stores.
$>$ Supermarkets comprised approximately 41\% of fluid milk sales during November 2013, while dairy and convenience outlets accounted for slightly more than $8 \%$. Supermarket sales accounted for more than $40 \%$ of total sales for four orders, and over one-third of the total for three others.
> The proportion of sales attributable to food chains ranged from a low of $37.4 \%$ for Florida to a high of $64.4 \%$ for the Southwest Order.
$>$ The Northeast Order reported the largest proportion of sales by dairy and convenience stores, with $12.6 \%$ of the order total.

## 2013 Fluid Milk Products Sold by Method of Distribution

## Institutional and Other

Graph 10: 2013 Fluid Milk Products Sold by Method of Distribution : Institutional and Other
> Institutional and other sales outlets accounted for $50.6 \%$ of all FMO fluid milk sales during November 2013. Florida reported the largest proportion in these combined categories with 62.5\%, while the Southwest Order reported the lowest at 35.6\%
$>$ The institutional category includes military and school sales, while the other category includes superstores \& hypermarkets, warehouse stores \& wholesale clubs, along with all other outlets.
$>$ Sales by institutional outlets ranged from a low of 3.4\% of the market total for the Pacific Northwest to a high of $15.8 \%$ for the Florida and Southeast Orders. The Central, Mideast, Northeast, and Upper Midwest Orders all reported institutional sales that were less than $10 \%$ of each market's total.
$>$ The other category comprised $55.7 \%$ of the market total for the Pacific Northwest Order, which was the largest among all FMOs during November 2013. The Upper Midwest Order was the only other order to report more than $50 \%$ of sales by this method of distribution.

## 2013 Fluid Milk Products Sold by Method of Distribution

## Other Wholesale Outlets

## Graph 11: 2013 Fluid Milk Products Sold by Method of Distribution : Other Wholesale Outlets

$>$ The other wholesale outlet method of distribution category -- warehouse stores \& wholesale clubs, superstores \& hypermarkets, and all other wholesale outlets - accounted for 41.3\% of total FMO fluid milk sales during November 2013.
$>$ The Southwest Order reported the largest proportion of sales by warehouse stores \& wholesale clubs with $12.5 \%$, while four orders reported proportions of less than $5 \%$.
$>$ Sales by superstores \& hypermarkets ranged from a low of $2.9 \%$ of the total for the Southwest Order, to a high of $23.1 \%$ for the Southeast Order.
$>$ Other Outlets include non-chain stores, non-food stores (drug stores, gas stations, etc.), restaurants, hotels, hospitals, nursing homes, vending machines and any other type of wholesale outlet. This category accounted for $21.6 \%$ of all FMO sales during November 2013, with a high of $40.1 \%$ for the Pacific Northwest Order and a low of $6.2 \%$ for the Southwest Order.

NOTES for Table 11:

[^1]
## Definitions:

Fluid Milk Product (FMP): Products included in the survey are limited to those that have been defined as Class I Fluid Milk Products in the FMMO's. Note: The one exception would be would be eggnog testing more than 9\% butterfat. They are not considered Class I FMP under FMMO's but are included in the survey with the Class I Eggnogs.

Type of Container: Containers are categorized by glass, paper, and plastic. Containers larger than one gallon shown in the glass category are metal cans. The paper category includes wax-coated and plastic-coated containers, and foil-lined UHT containers. Plastic includes rigid blow mold or thermoformed containers, single-serve round (milk bottle shaped) containers, plastic-lined boxes (polyethylene bag in corrugated paper box or in rigid plastic case), and plastic bags sold separately. Containers larger than one gallon in the plastic category, for the most part, are bag-in-box containers.

Size of Container: Container sizes surveyed are: gallon, half-gallon, quart, pint, half-pint, 6-gallon, 5-gallon, 14 ounce, 13.5 ounce, 12 ounce, 10 ounce, round pint, round half-pint, round other, and other. Containers banded together, or containers put into larger bags, sacs, etc., are reported separately. Examples: 1/2 -gallon twin packs are reported as two $1 / 2$ gallons; four 1-quart bags in a larger bag are reported as four quart units, not as a gallon; six-packs of half pints are reported as six half pints, etc. Note: The unit to pound conversion factors for the various sizes and types of Fluid Milk Products included in this survey are shown in Appendix Table A-1).

Method of Distribution: Sales are divided into home-delivery and wholesale. Home-delivery includes quantities delivered to homes or sold to others for delivery to homes. Wholesale includes quantities distributed through all other methods. Wholesale is broken down into food chain stores, institutional outlets, and all other.

Food chain stores are defined as 11 or more stores, primarily engaged in food retailing, and either being under common management, being franchised by a common company, or belonging to a common purchasing association. Food chain stores are categorized into supermarket or dairy/convenience stores. Also identified are vertically integrated chain stores. Vertically integrated includes those chain stores which have integrated backwards into fluid milk processing, and fluid milk processing plants which have integrated forward into chain store ownership. Also included are franchise organizations in which the franchiser also owns a dairy plant that services the franchisee's store and associations of independent food store owners which jointly own a dairy plant that services their stores.

Institutional outlets are military installations and schools which includes public schools (elementary and high school), colleges, and universities. All other wholesale is broken down into superstores/hypermarkets, warehouse stores/wholesale clubs, and other. Superstores/hypermarkets are general merchandise stores that include a full-line supermarket. Other includes non-chain food stores, non-food stores (drug stores, gasoline stations, etc.), restaurants, hotels, hospitals, nursing homes, vending machines, and any other type of wholesale outlet.

Restricted Information: Items that have been foot-noted with a "CR" are confidentiality restricted. These figures can't be published as they represent the activity of fewer than three handlers.

## Non-Discrimination Statement

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at How to File a Program Discrimination Complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.

[^0]:    NOTES for Table 1 and Table 2:

    LT - Less than 0.5 percent.
    NA - This category was discontinued prior to 2001.

    * The figures in Tables 1 and 2 are based on the aggregate sales volume (all products and all orders combined). See Table 10 for applicable sales volume. Totals may not add due to rounding.

[^1]:    *Total sales for all orders combined. Totals may not add due to rounding.
    **Sales of total fluid milk products by handlers regulated under the order; the outlet to which the milk product is delivered may not be located in the marketing area of the order. Totals may not add due to rounding.
